Acushnet Co 700 Belleville Ave NB Intertidal Data Transmittal Letter 11-21-2016.docx
Titliest NBH Ph 2 Intertidal data table 112-133.pdf
Titliest Base West P112 133 actuals Individual r01.pdf

Hi Ginny,

Attached for your review and eventual signature is the revised data transmittal letter to the Acushnet Co (Titliest) along with the figure and the table of results. Cindy and I worked on the letter and Cindy recommended that we send the letter and the email (with attached pdf of the signed letter, table and figure) to Kevin Kelly as he has been the site contact for us. Fyre and Giroux are cc'd on the letter. We will obviously be sending the original letter out in the US mail. Here's suggested text for the email:

Mr. Kelly:

Attached is a letter informing you of sampling results from subsurface sediment and soil investigations EPA conducted on the Acushnet Company property as part of the New Bedford Harbor Superfund Site cleanup. You will note the letter requests that you contact Elaine Stanley at EPA within 10 days to discuss the contents of the letter, including our desire to share these analytical results with AVX Corporation for consideration and incorporation into its draft comprehensive cleanup plan. As stated, Elaine can be reached by email at Stanley.elanet@epa.gov or by phone at (617) 918-1332.

Thanks Ginny and let Max and me know if the letter and draft language for the email is OK. I plan on being in the office tomorrow and can mail the letter out. If you want to send the email out today, Max can pdf the letter with attachments after you sign it if you don't have the time today (thanks Max).

Thanks,

Elaine

Elaine Stanley
